

## A gift for members of: <http://dmscraft.proboards.com>

This document contains a variety of items that are extremely difficult to produce by hand, like pages of text, microscopic playing/tarot cards, small maps, etc. Simply print and use! I have roughly scaled everything to *my own approximation*, using 28mm as my general guideline. Of course, that means a book is as a third as tall as an adult human, but I'm okay with that... I don't own a microscope. If all scrolls were 8.5 x 11, people probably wouldn't need to roll them up.

All images were grabbed off the internet, so resale or commercial use is highly discouraged.

### Tips:

- The blue text in the upper left corner of the next 2 pages is a recommendation. If you do not have card stock, you can also just print both pages on plain printer paper
- Inkjet ink can run, bleed, wipe off, etc. After gluing these items onto whatever surface they're going to live on, apply a thin layer of pva/white glue or matte finish ModPodge, to help protect the delicate printer ink
- You could take one of the included "blank" pages and fold it into thirds (with the image on the outside), then "seal" the letter with a drop of red acrylic paint, to make that classic wax-sealed envelope look
- When printing, make sure no scale/fit setting is turned on (File was made at standard 8.5" x 11" letter size)

**Enjoy!**

**This file is for personal use only. All artwork is property of the original creators.**

This page should be printed on plain paper

**Book Pages:**  
Can be inserted into books, or single pages can be used loose as scrolls, letters or other documents

Single Pages (1cm sq.)	Double Pages (2cm x 1cm)	Double Illustrated	Blank Pages	Sheet Music

**Maps:**  
Can be hung on walls, rolled and placed on shelves, put onto tables, etc

Map 1	Map 2	World Map (Based off Pathfinder)

**Playing/Fortune/Tarot Cards**

(Cut cards apart. Guaranteed to make you go cross-eyed.)

This file is for personal use only. All artwork is property of the original creators.

This page should be printed on card stock

### Unique Covers

(1cm, 2mm, 1cm)

### Book Collections

(Like encyclopedias, law books, etc)

### Instructions:

1. Glue book covers (as one strip) onto 3 sides of a popsicle stick. (Mine are 1cm x 2mm, which is what all the above art is sized to)

2. Lay popsicle stick on a cutting board. Between each book, press firmly straight down with a razor blade until halfway through the wood. Flip over and repeat until book is cut free.

Note: Regular straight razors work best. Scissors may split the wood.
